

Using Techhead

What is Techhead?

Techhead.org is the website run by [OETC](#) specifically for student and staff purchases. We work with our vendor partners to offer great deals to students and staff of any academic institution.

What is different about Techhead?

The biggest difference between Techhead.org and other academic software sites is the large fact that we are **NON-PROFIT!** We are not seeking to pad our wallets, or drive up our stock shares. We are specifically trying to find the best deal out there for all academicians. We make a small amount on each sale to cover the costs of rent, utilities, etc, but our bottom line is finding the best deals for those belonging to our member institutions.

Who is OETC and how are they related to Techhead?

OETC is the parent organization of Techhead.org. OETC's main mission is to serve our academic institution members. We created Techhead.org to make personal purchases by our member's employees and students much simpler and more direct. More information on OETC and the mission of OETC may be found at <http://www.oetc.org/about.html>.

Ordering on Techhead:

To find products and order you need to go to : www.techhead.org

Place items into cart and then hit Checkout Now. If everything looks right hit: "Order"

Now you are asked for your name and school ID. The school ID has to be a 5 digit #, which is assigned to you from La Salle. This ID is what should be on your School ID and what the kitchen uses for your accounts. If you are unsure of what that number is please contact Susan Pinto at spinto@lshigh.org or 503-496-1771.
